

Parcel JD – Consultant Option

To use the Parcel JD – Consultant Option, consultants and other environmental professionals with wetlands expertise must submit the following information to the appropriate regional Bureau of Ecosystem Health email address (listed below) to schedule boundary validations:

- Name and contact information of the property owner.
Name and contact information of the consultant.
Location of parcel(s), street address or nearest intersection, County, Town, and tax map identification numbers.
Summary report that describes all the wetlands regulated by Article 24 on the parcel or property, including nutrient poor wetlands and vernal pools productive for amphibian breeding where adjacent areas may be extended pursuant 6 NYCRR Part 664.7(a).
Proposed classification of each Article 24 regulated wetland(s) located on the parcel(s) based on the most recent version of DEC's "Standard Operating Procedures (SOP) for Remote Jurisdictional Determinations and Classification of Freshwater Wetlands Pursuant to 6 NYCRR Part 664, Freshwater Wetlands Jurisdiction and Classification."
A wetland delineation report that includes a map of the regulated wetlands with property boundaries and field data sheets.
Shapefiles of the delineated wetland boundary, wetland survey area for large parcels, and if known, the limits of disturbance for the proposed project.

Only complete submissions containing all the required information listed above will be reviewed and evaluated by regional staff within the Bureau of Ecosystem Health. Complete submissions will be reviewed to validate the wetland delineation and confirm the wetland classification and may be rejected because of gross errors.

Consultant List

March 2022

Please note that the Department does not recommend any particular consultant to complete wetland delineations or assist with Permit Applications. The following list of consultant firms are those that have completed applications for freshwater wetland or protection of waters permits in the past.

Please note that not all of the consultants listed below are qualified to delineate wetlands. It is important that you confirm with the consultant that they have gone through appropriate training to complete a wetland delineation to New York State standards before you hire them to perform your work.

ABD Engineers & Surveyors

411 Union
Schenectady, NY 12303
(518) 377-0315
