WHEREAS, the Galway Town Board wishes to consider adopting a six (6) month moratorium on the construction of any new Solar Farm and/or Battery Energy Storage System to provide the Town time to consider and address, if possible, the impacts that may be created by such land uses; and

WHEREAS, the Town Board has caused the preparation of a Proposed Local Law entitled, “A Local Law Establishing a Moratorium on Solar Farms and Battery Energy Storage Systems in the Town of Galway”, which would establish a Moratorium on the construction, establishment, installation, review or approval of any new or expanded Solar Farm or Battery Energy Storage System within the Town for six (6) months.

Supervisor stated that the original request for Proposed Local Law also included Data Centers. Since the State has enacted a State-Wide One (1) year Moratorium on Data Center’s it is not necessary for the Town to address this at this time.

Tom O’Brien in the middle of Board making a resolution to schedule public hearing went off on the need for this information to be put on Town Facebook page. Would like the last rabies clinic on Facebook. **Brian Burns** interjected that it states Town of Galway Facebook. **Town Clerk** stated that she doesn’t do the Facebook page that is not done in house since previous Supervisor left. She does the website for everyone but highway & building department. **Councilmember James Ross** stated that Board was in the middle of a resolution comments should come at privilege of the floor. Board finished resolution. **Supervisor Arnold** stated that the Town is not using the Facebook page that states Town of Galway. He believes Melissa Rathbun is putting

some social media information on it like Blueberry Festival Information. He will check with her about adding information. The Town website is where our information is posted for public notification.

Other Business – None

Privilege of the floor – **Roxanne Marsh** stated that last summer the Ethics Board gave the Supervisor suggested changes to Code that needed to be forwarded to Town Attorney for their review, to date that have had no response regarding their proposed changes. **Supervisor Arnold** stated that he has not received anything back from them to date. He will contact them this week and see what the status is on changes. **Roxanne** on another note felt that Facebook was a great avenue to use to get information out to public. She however felt someone should be in charge, and information should be filtered thru the Supervisor's office. **Supervisor** will let Roxanne know what Attorney says regarding update on changes and will see what Melissa says about putting stuff on Facebook. **Jessica Bellone** asked about status of Comprehensive Plan. **Supervisor** stated that they were proceeding on schedule. They have another meeting this month. Surveys continue to come in, mostly completed by Seniors. **Jessica** questioned if information from survey would be shared. **Councilmember Gabriel Raia** stated that survey is still open, once it is closed Engineer will compile information and it will be part of information shared with public. Seniors have surveys on their shelving units in back and we have them in lobby. **Brian Burns** questioned status of negotiations with highway department. **Supervisor** stated that they have had no feed back from them to date. **Andy McPherson** questioned status of connection with solar project. **Max** stated system isn't live, waiting for revisions to be submitted. Depending on level of alterations, may need to go back before planning board. **Tom O'Brien** questioned if new poles in village were for solar. **Max** stated poles were on right-of-way that would not be solar that is National Grid. **Brian Burns** questioned if there were talks about the Town absorbing the Village? **Supervisor** stated that he didn't know for sure, but believes Village may be investigating that avenue. Discussed water/sewer issues, which Supervisor advised would be the responsibility of the property owners that are in that district. **Supervisor** stated that currently we do well with sales tax distribution, this is all subject to change.

Councilmember Gabriel Raia made a motion, seconded by Councilmember James Ross to adjourn the meeting at 7:52 p.m.
